QUADRANTE

COOKIE POLICY

WHAT ARE COOKIES?

Cookies are small text files stored on your device by your web browser when you visit a website. They can store information about your preferences and how you use the website.

WHAT ARE COOKIES USED FOR?

Cookies help us understand how visitors use our website and which content they find useful and relevant. They also make browsing faster and more efficient by reducing the need to enter the same information repeatedly.

WHAT TYPES OF COOKIES DO WE USE?

Cookies can be divided into two categories:

- **Persistent cookies**: These cookies remain stored in the browser on your device (computer, smartphone or tablet) and are used when you return to our website. They generally help tailor your browsing experience to your interests, allowing us to provide a more personalised service.
- **Session cookies:** These are temporary cookies that remain in your browser until your browsing session ends. The information they collect helps us analyse website traffic patterns, identify issues and improve your browsing experience.

WHY DO WE USE COOKIES?

- **Strictly necessary cookies:** These allow you to navigate the website, use its features and access secure areas. Without these cookies, the services you request cannot be provided.
- **Analytical cookies:** These are used to compile and analyse anonymous statistics to improve the website's performance.
- **Functionality cookies:** These store your preferences so that you do not need to configure the website again each time you visit.
- **Analytics cookies:** These measure the performance of applications and the effectiveness of third-party advertising. They may also be used to personalise a widget using user data.
- **Advertising cookies:** These tailor advertising to your interests, limit the number of times you see an advertisement and help measure the effectiveness of advertising campaigns. They also help us assess how advertisements are presented and organised on the website.

HOW CAN YOU MANAGE YOUR COOKIES?

Web browsers allow you to accept, reject or delete cookies through their settings, usually found in the "Options" or "Preferences" menu. However, disabling cookies may prevent certain website services from working properly and may affect some or all of your browsing experience. You can disable cookies at any time by changing your browser settings, for example in:

- Google Chrome
- Internet Explorer
- Mozilla Firefox
- Apple Safari

WHAT HAPPENS WHEN COOKIES ARE DISABLED?

Some features and services may stop working or behave unexpectedly. For example, the website may no longer recognise you on certain pages or provide information relevant to your location.

If you disable cookies on this website, you may be unable to access certain areas, and the quality of your browsing experience may be significantly reduced.

UPDATES TO THIS COOKIE POLICY

Quadrante may update this Cookie Policy to reflect legal or regulatory requirements or new guidance issued under applicable law.

Website users will be notified of any significant changes to this Cookie Policy.
